

# WESTMINSTER CRIER

Management will be inspecting all irrigation timers this month for proper watering days and zone running times. The maximum running time for each zone is 30- 40 minutes. We recommend 20-30 minutes running time per zone or less.

If your system is set wrong it will be corrected. If you are watering more than two days a week it will be corrected. If your system has to be corrected by management you will be notified by letter of this violation. Please do not change the setting after you have received a letter.

We are coming into our dry season. It has not rained in four straight weeks. This past week I have inspected 60 homes in the community. 97% of the homes inspected are watering more than an hour per zone, watering on the wrong days, and watering four days a week. If this issue is not addressed and corrected by all homeowners there could be a watering restriction by the SFWMD of South West Florida.

Thank you,

Paul Braid, Manager- Westminster Community

## Lee County Sheriff's Office News

Are you flying this holiday season? If so, have you considered that your airline ticket could be used by thieves to steal your identity? Unfortunately, the paper boarding passes of old contain a lot of personal information such as your name, address, flight information, credit card number, and more. Some of this information is evident and some is secreted in the bar code found on your ticket.

So, how do you protect your information from falling into the wrong hands? You can start by following these very simple safety tips:

1. Use a paperless boarding pass. The best practice is to switch from the paper boarding pass to paperless. This way, TSA and the ticket agent can scan the ticket via your smart phone and you can delete the pass once you have reached your destination.
2. Shred, Shred, Shred. Do not toss your boarding pass in the trash or leave it on the plane once you are done flying. Instead use a cross-cut shredder to properly dispose of the pass, along with any other documents you no longer need that contain your personal information. Some hotels provide shredders in

their business office, but be sure it is a "cross-cut" before using.

3. Privacy is good. Taking a trip is exciting, but not everything needs to be posted on social media. Refrain from announcing your travel plans to the whole world if you want to avoid letting thieves know your home is vacant. Wait to share your travel pictures once you return home.
