

WESTMINSTER CRIER

Notice

The community is back to watering two times per week, as we are receiving much needed rain.

AND the fountains are back on!

This cactus is in our back yard on Baincrest (11th hole). It started out in a pot on our lanai. We planted it in our back yard 7 years ago. It grows taller and produces more flowers every year. The bees love the flowers.

Lew English- Back on the Trail!!

Surprise! I'm back where I left in Damascus Va. After two days on a trip to Damascus in Herb and Denise Ecker's RV and a nice day bicycling the Virginia Creeper trail it was up at 5am and I started walking at 6:30.

So far I have come 39 miles in the first three days. It has not come easy. My legs are still adjusting to the mountains and there has been lots of rain at night, leaving the trail very wet. I get up early and get going because I need a lot of breaks. It's the 4th day and the weather is great. Grayson heighland was fun. Saw lots of horses.

Well not much AT&T service so far. Six total days of hiking has gotten me to Atkins Va. the first 4 days were extremely hard. I thought I was ready but my legs were tired beyond words. They are getting better and today, day 6, most of the extreme fatigue and soreness is gone.

Lew English- Back on the Trail- June 6

I am at Bland, VA at Zero Days Inn. Happy to be dry in my \$20 bunk. 9 days walking and I have gotten 120 miles. I am planning 17 miles tomorrow.
