### **News from the Board Meeting**

#### **Common Grounds**

The pavers by the front entrance are scheduled to be resealed on June 15, 2021. More information and notice will be sent out as we get closer to the date.

#### **Other Information**

The Board approved the purchase of an emergency generator to be installed at guardhouse at front gate.

All vehicles including golf carts must come to a complete stop at stop signs.

Where sidewalks are available, pedestrians are asked to make use of them. Walking in the roadway is dangerous. Remember when walking at night, light colored clothing or flashlights will help drivers to see you.

Remember our speed limit is 19 mph. There is no passing of other moving vehicles on our streets.

### **CANE TOADS**

Florida has become home to the Cane Toad, a toad that can pose a danger to both humans and pets. The toad has a poisonous toxin. Should your pet be exposed you should get it to a veterinarian right away. For more information on the Cane Toad, follow this link: [CANE TOADS](#)

**Neighbor helping Neighbor**

Just recently I (Angela Austin) had a need for some help in an emergency situation. Afterwards I was thinking that we need to have a directory for all people here in Westminster who may need help. So I am proposing we form a directory of those who are willing to help their neighbor when needed. This information will be helpful and assuring to many.

If you are interested in participating, please email to me your name, address, phone number and if you are a full time or part time resident. My email is [angela1717austin@comcast.net](mailto:angela1717austin@comcast.net). I will compile this information. I will post this in the community center and have it available for the office.

Just a note of safety, it is a good idea to have a list of important contacts on your refrigerator. This should include family, friends and doctors. Depending on the situation, you may not be able to tell people who to contact.

Thanks in advance for your co-operation. Angela Austin
